ASM Affiliates is a leader in the field of cultural resources management (CRM). Combining extensive experience and comprehensive expertise, our team of *Secretary of the Interior* qualified archaeologists, architectural historians, and historians has completed over 5,000 projects in all phases of compliance. This includes Section 106 and 110 of the NHPA, ARPA, NEPA, and state-specific CRM laws. With over three decades of experience servicing federal agencies throughout the West, ASM is well positioned to assist any contractor or agency regardless of the project size, location, or scope.

Please contact Mark Becker, RPA (mbecker@asmaffiliates.com) or
Sarah Branch, RPA (sbranch@asmaffiliates.com) for further information.

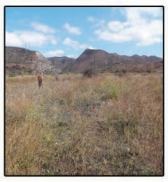
ASM Affiliates, Inc.

Providing Cultural Resources Compliance Services

Since 1977

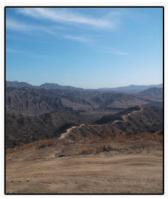
PROJECT EXAMPLES

Title: NAVFAC Southwest Cultural Resources Services IDIQ
Client: NAVFAC Southwest



Over the course of four consecutive contracts ASM has completed over 150 task orders for compliance with the NHPA, NEPA, ARPA and NAGPRA. Services provided include historic building assessments, management plan preparation, GIS database creation and intensive pedestrian surveys.

Title: MCB Camp Pendleton 9,000-acre Burn Archaeological Survey
Client: NAVFAC Southwest



ASM conducted a 9,000-acre survey of recently burned areas in compliance with Section 110 of the NHPA. The goal was to identify, record and inventory all resources in an effort to support future management recommendations on the installation. Additional testing and a geomorphological survey were also completed as well as a specialized 440-acre survey in an area of known archaeological significance.

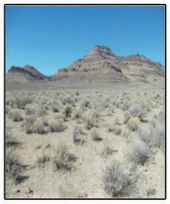
Title: Historic Building Maintenance Plan, Herrmann Hall (Historic Hotel Del Monte), Monterey
Client: NAVFAC Southwest

ASM developed a historic building maintenance plan guiding the National Park Service in facilitating continued compliance with Section 106 of the NHPA. The overall focus was to help improve overall management when providing on-going maintenance, repair and restoration of the Spanish Colonial Revival Herrmann Hall. ASM prepared a consolidated guide to architecturally sensitive features, past inappropriate modifications, and summary of current and periodic maintenance requirements.

Title: Archaeological Inventory for the Middle Creek Stewardship Project
Client: BLM, Eagle Lake Field Office

ASM conducted a Class II and Class III Inventory of 6,941 acres for the BLM. Services provided included a records search and literature review, intensive pedestrian survey, NRHP evaluations, and cultural resources inventory report produced to BLM standards.

Title: BLM Rock Art Area of Critical Environmental Concern Survey
Client: BLM, Ely District Office



ASM was contracted by the BLM to complete a Class III cultural resources inventory of 33,905 acres in central and western Lincoln County. The research aimed to document any spatial, temporal, and contextual associations between rock art and archaeological remains, and to interpret rock art from a landscape or land-use perspective. Additional scope included NRHP eligiblity evaluations, GIS mapping, background research, and final report preparation.

Title: Slinkard Valley Class III 2,600-acre Archaeological Survey
Client: BLM, Bishop Field Office

ASM conducted a cultural resource inventory of 2,600 acres in Slinkard Valley. A Class III level survey was accomplished within the sagebrush scrub and pinyon-juniper zones of the valley floor, which is administered by the California Department of Fish and Game, and the BLM, Bishop Field Office. Overall, 16 newly identified sites, and 123 isolated finds were recorded. One historic road segment was also identified. A technical report documenting the results of the survey and recommendations was submitted to the BLM.

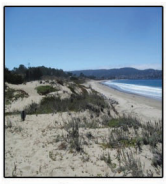
Providing Cultural Resources Compliance Services

Since 1977

PROJECT EXAMPLES

Title: Class III Archaeological Survey at NSA Monterey and Detachment Santa Cruz
Client: NAVFAC Southwest



ASM conducted a Class III archaeological inventory of 327 acres on three parcels of land under jurisdiction of the NSA Monterey. The survey was accomplished in accordance with Section 110 of the NHPA and included a parcel located within the Lockheed Martin Space Systems Facility in Santa Cruz.

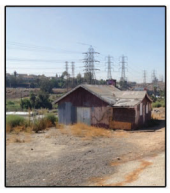
Title: BLM Battle Mountain District Resource Management Plan and EIS
Client: BLM, Battle Mountain District

ASM was contracted to conduct a Class I regional overview and ethnographic study in support of an amended Resource Management Plan and EIS for the BLM. The Class I was not a simple literature search but rather a professionally prepared study that included a compilation and analysis of all reasonably available data and literature, and a mangement-focused, interpretive, narrative overview, and a synthesis of the data.

Title: Caltrans District 11 On-Call Cultural Resources Studies Consultant
Client: Caltrans District 11

Over the course of seven consecutive contracts, ASM has performed archaeological and historic Phase I surveys, Phase II NRHP eligibility evaluations, Phase III data recovery programs, and produced numerous technical reports for sites within alignments of State Routes and Interstates throughout San Diego and Imperial counties. Projects were completed in consultation with the SHPO and in compliance with CEQA and the NHPA.

Title: Tejon Ranch Master Services Agreement Cultural Resource Services
Client: Tejon Ranchcorp



Since 2011, ASM has conducted Phase I surveys, Phase II test excavations and Phase III data recoveries of prehistoric and historic archaeological sites, nomination and NRHP listings, preparation of Environmental Awareness Programs, and monitoring in compliance with CEQA and the NHPA.

Title: Skaggs Island Historical Resources Inventory and Evaluation
Client: NAVFAC Southwest

ASM conducted an intensive historic resources inventory and evaluation of Cold War-era (1946-1989) buildings and structures at NSGA, Skaggs Island to determine eligibility for the NRHP. Despite barriers ASM was able to craft a solid context for evaluating eligibility of the installations resources by utilizing secondary literature and by contacting the U.S. Naval Cryptologic Veterans Association.

Title: Section 110 Archaeological Inventory of 3,009 Acres at NAS Fallon
Client: NAVFAC Southwest

ASM was contracted to conduct a Phase I archaeological inventory in compliance with Section 110 of the NHPA. The project was requested to assist NAS Fallon improve overall management of historic properties on the installation. The Phase I included a records search and literature review, pedestrian survey, site recordation, and preparation of site forms.

Title: Inventory and Evaluation of Historic Resources for the Campo Verde Solar Project
Client: First Solar, Inc.

ASM's Architectural Historians completed an evaluation of nine canal systems, nine residential buildings, one school, and one shed building identified within the APE, totaling 20 resources. In addition to eligibility evaluation for the NRHP and state registers, ASM also assessed direct and indirect impacts.

Title: Edwards AFB High Complexity Sites Evaluations
Client: JT3, LLC / CH2MHill

ASM conducted archaeological testing and NRHP evaluations at 31 archaeological sites northeast of Rogers Dry Lake at EAFB in Kern County for Section 110 compliance, in order to provide guidance for future management strategies at EAFB. The 31 sites include one historic period refuse deposit and 30 prehistoric archaeological sites.
